PROJECTS

StudyNotion [Live](#) [GitHub](#)

- A full-stack platform with **separate dashboards** for **users**, **instructors**, and **administrators** built using **MERN**.
- **Admin** can **create categories**, **Instructors** **create courses**, **track sales** using UI and users can provide **ratings**.
- Devised robust **user authentication** using **JWT** and **responsive UI**, ensuring user engagement, and streamlined course management through **courseEndpoints API** efficiently manage **course creation**, **updatation**, and **deletion**.

Ecomzy [Live](#) [GitHub](#)

- Built a responsive e-commerce web application using **Reactjs** and **Tailwind CSS** to provide modern **UI**
- Designed core cart functionalities: **Product browsing**, **cart management**, **dynamic total calculation**.

Sorting Visualizer [Live](#) [GitHub](#)

- Implemented a interactive sorting visualizer using **Reactjs** and **CSS** to demonstrate various **sorting algorithms**.
- Algorithms includes: quicksort, mergesort, insertion, bubble, selection sort with control over array length and delay.

Weather App [Live](#) [GitHub](#)

- Developed a dynamic weather application using **HTML**, **CSS**, and **JavaScript** for a responsive and interactive UI.
- Seamlessly integrated **OpenWeatherMap API** for instant, **real-time** weather data updates from across the globe.

KEY COURSES TAKEN

- Full Stack Web Development Bootcamp [**MERN**] [Certificate](#)
- Design And Analysis Algorithms, Database Management System, Operating Systems, Computer Networks

ACHIEVEMENTS

- Successfully tackled **700+** DSA problems across various platforms, [LeetCode](#) [GeeksForGeeks](#) [CodeStudio](#)
- Achieved institue **Rank 13** in problem-solving with an overall coding score of **1800+** on [GeeksForGeeks](#)
- Consistently ranked among the top **3000-5000** out of about 30,000 participants in multiple LeetCode contests.
- **Student Placement Representative** for the batch **2021-25** at Training and Placement Department of SLIET
