Education

Sant Longowal Institute of Engineering and Technology

2021 – 2025

Bachelor of Engineering in Computer Science | CGPA : 8.7/10

Punjab

Experience

Infosys

01/2026 – Present

Digital Specialist Engineer

Pune, Maharashtra

- Built and enhanced RESTful APIs using Spring Boot for the Infosys Emergency Response Management System (IERMS), enabling real-time employee support and incident management during global emergencies.
- Implemented backend business logic across controller and service layers, designing JSON request/response models for multiple application features and workflows.
- Worked closely with senior developers to understand enterprise database architecture, API integration patterns, and scalable backend system design within a large-scale production environment.

Infosys

09/2025 – 12/2025

Digital Specialist Engineer Trainee

Mysuru, Karnataka

- Gained hands-on 3+ months experience with HTML, CSS/Bootstrap, ReactJs, Java, Spring Boot, and Gen AI.
- Collaborated in a 4-member team to develop a scalable Pinterest-style web application using React.js and Spring Boot.
- Implemented secure authentication, image upload and management, boards and pins functionality, public/private profiles, user collaboration features, sponsored content, and responsive UI to enhance user experience with 90% accuracy.

Projects

Pinterest Inspired Web App | |

- Developed a Pinterest-inspired social media platform using React.js and Spring Boot in a team of 3, enabling users to create, organize, and share content through customizable pins and boards.
- Implemented core social networking features including public/private pins, comments, user profiles, follower/following relationships, and real-time chat functionality.
- Built a business collaboration module for sponsored content promotion, allowing businesses to boost post visibility similar to promoted posts on modern social media platforms.
- Tools/Technologies : React.js, Spring Boot, Java, MySQL, REST APIs, Postman, Git, GitHub

StudyNotion | [Github](#) | [Demo](#)

- Developed a fully functional ed-tech platform with dedicated dashboards for users, instructors, and administrators.
- Enabled administrators to manage categories, instructors to create and track course sales, and users to rate courses.
- Integrated Razorpay for 100% secure payments, enhancing transaction reliability and checkout experience.
- Streamlined course and profile management through RESTful APIs, achieving 100% accuracy in dynamic content updates and management.
- Tools/Technologies : Reactjs, Nodejs, TailwindCSS, MongoDB, Postman, Cloudinary, Razorpay, Vercel, Render

QueryXAI | [Github](#) | [Demo](#)

- Built an AI-powered system for querying PDFs using natural language, delivering real-time responses and improving document insight retrieval.
- Implemented drag-and-drop file uploads, authentication, and 100% secure subscription plans with Stripe integration.
- Leveraged OpenAI API and LangChain for intelligent document parsing and Pinecone for vector-based retrieval.
- Tools/Technologies : Next.js, tRPC, Prisma, TailwindCSS, LangChain, Pinecone, OpenAI, Stripe, Vercel

Technical Skills

Languages: C/C++, Java, Python*, JavaScript, HTML, SQL*

**elementary level proficiency*

Technologies/Frameworks: Spring Boot, ReactJs, NodeJs, RESTful APIs, CSS/Tailwind, Bootstrap*, MongoDB

Developer Tools: VS Code, Eclipse, IntelliJ, Git/GitHub, Postman, MongoDB Compass, MySQL Workbench, Vercel

Testing/Automation Tools: Selenium (Java), Playwright (Python), API Testing, Functional Testing

Achievements/Leadership

- Continuing a coding streak of 900+ days, figured out 1000+ DSA problems. [LeetCode](#), [GeeksForGeeks](#).
- **Ranked 01** on [GeeksForGeeks](#), with a score of 300+, placed me in Top 2% of the Institute historically.
- Achieved LeetCode's 365-Days Problem Solving badge, placing in the top 0.4% of users globally.
- Student Placement Representative for the 2021-25 batch, managing placement activities at T&P department of SLIET.
